Rahul Singh Chouhan

Full-Stack Developer

Udaipur ,Rajasthan | mailtorahul724@gmail.com

Summary

Results-driven Front End Developer with 5+ years of experience designing and building responsive, user-focused web applications using modern technologies like HTML5, CSS3, JavaScript (ES6+), React.js, and PHP. Adept at translating UI/UX designs into scalable and maintainable code, optimizing performance, and collaborating across cross-functional teams. Successfully contributed to projects in media, consulting, and design industries, including lead generation tools, billing software, and cloud-integrated file management systems. Known for problem-solving, adaptability, and a fast learning curve with a strong interest in blending software with real-world hardware integrations. Actively seeking opportunities to grow within innovative, product-focused teams.

Work experience

Shree Yash Stainless Steel Pvt Ltd   6/2024 - Present

Web App Developer

- Oversaw operations and processes within a leading stainless steel manufacturing organization, ensuring efficient production workflows and adherence to quality standards.
- Implemented strategies to optimize resource utilization and improve operational efficiency across various departments.
- Coordinated with cross-functional teams to meet production goals, maintain timelines, and support overall business objectives.

Btrack World   01/2022 - 5/2024

Front End Developer

- Designed and implemented responsive, high-performance web interfaces utilizing HTML, CSS, JavaScript, and frameworks such as React.js to meet client specifications and project requirements.
- Collaborated with design and backend teams to translate UI/UX mockups into interactive web components; ensured cross-browser compatibility through debugging and optimisation while improving user experience with animations, dynamic content, accessibility features, and SEO-ready architectures.

Design Café   02/2019 - 02/2020

Front End Developer

- Developed and integrated functionality into software systems based on requirements from clients and designers, ensuring seamless collaboration with the front-end team to deliver efficient solutions.
- Resolved bugs, optimised code for improved performance, and implemented web applications in collaboration with teaching teams, including designing scripts for data retrieval, back-end processing, and graphical interface presentation for billing software, lead generation tools, and stock management systems.

TE4B   01/2018 - 12/2018-

Software Developer

- Developed modular and efficient back-end code to manage data processing, ensuring seamless functionality, reliability, and alignment with organisational standards.
- Contributed to an automation project for transforming JSON and text data into visual formats like charts and graphs, enhancing business insights and decision-making capabilities.

Knappliy.com   06/2017 - 01/2018

Web-Developer [Internship]

- Developed and implemented a live project to improve the company's online presence, leading to enhanced operational efficiency and optimised website performance for a superior user experience.
- Designed an online file management system with categorisation by date and topic, integrated Amazon Cloud backup solutions for secure data storage, and introduced automation tools, reducing manual workload and improving collaboration among content creators.

Education

Christ University   2014 - 2017

MCA

Successfully completed and presented a final-year project: **"Event Management System"** using PHP, MySQL, HTML, and CSS.

Mohanlal Sukhadia University   2011 - 2014

BCA

Participated in multiple **inter-college coding and tech competitions**, gaining hands-on experience in software problem-solving and teamwork.

St. Gregorios Sr. Sec school   2009 - 2010

CBSE (12th)

Actively participated in **National Cadet Corps (NCC)** camps, developing leadership, discipline, and team collaboration skills

Skills

Technologies Used

- Python 3, Java
- HTML 5, CSS 3, PHPUnit
- Bootstrap, Media Queries
- Responsive layout, R, node.js
- Angular 1, React Native/Expo
- Javascript, C, C++, Actionscript

Database

- XML queries
- NOSQL, MongoDB. SQL
- Working with Multi-Tenant DBs
- SQL Server 2000/2005/2008/2012

Area of interests

- Hiking
- Cycling
- Puzzles
- Logical reasoning Question
- Music & Movies

Certificate

Privacy Preservation and Data Security on the Internet Using Mutual SSL
